Project & Product Management | Associate Project Manager

Hi, call me Ghifarii. I am an Information Systems fresh graduate with hands-on experience as an Associate Project Manager at TransTRACK. During my internship, I was involved in project requirements, planning, documentation, stakeholder coordination, and project monitoring for a technology-based project. I have experience working with User Stories, Acceptance Criteria, Requirements Traceability Matrix, backlog refinement, and project evaluation. I enjoy working at the intersection of technology, business, and project execution, and I am passionate about turning requirements into structured plans and delivering projects through effective collaboration. I am currently seeking opportunities in Project Management and Product Management where I can continue to learn, grow, and develop my expertise.

EDUCATION

Telkom University <i>Diploma 3, Information System</i> GPA: 3.27/4.00	Bandung August 2023 - August 2026
Diploma in Information Systems with a focus on information technology, system development, and project-based learning. Completed academic projects involving web-based systems, including a costume booking platform and a collaboration platform connecting content creators and editors.	

WORK EXPERIENCE

Telkom University <i>Teaching Assistant, Part Time</i>	Bandung, Indonesia September 2025 - January 2026
- Assisted laboratory sessions by mentoring students and providing technical guidance throughout practical activities. - Supported students in understanding and applying course materials through hands-on laboratory exercises. - Assisted in troubleshooting technical issues and ensured laboratory activities were conducted effectively. - Communicated with students and laboratory staff to support smooth execution of laboratory sessions.	
Pertamina EP Cepu Zona 11 - GM CUP III <i>eSports Head Coach - Mobile Legends: Bang Bang, Freelance</i>	Cepu, Central Java, Indonesia July 2025 - August 2025
- Led and coached a Mobile Legends: Bang Bang esports team throughout the Pertamina EP Cepu Zona 11 – GM CUP III tournament. - Developed team strategies, analyzed team performance, and provided tactical guidance to improve competitive performance. - Coordinated players throughout training and tournament stages, ensuring effective communication and execution of team strategies. - Guided the team to the Final Round and secured 2nd Place (Runner-Up) through strategic drafting and performance analysis.	

INTERNSHIP EXPERIENCE

PT Indo Trans Teknologi <i>Associate Project Manager, Intern</i>	Bandung March 2026 - July 2026
- Supported the Rally Monitoring System project as an Associate Project Manager, focusing on project requirements, documentation, planning, and progress monitoring. - Translated project requirements into User Stories, Acceptance Criteria, and Requirements Traceability Matrix (RTM) to support clear project execution and requirement tracking. - Managed and refined project backlogs, mapped tasks, and monitored project progress through daily stand-ups and project coordination activities. - Coordinated with stakeholders across RTD100, Rally Control Software (RCS), UI/UX, and project teams to align requirements, progress, and project deliverables. - Supported Proof of Concept (POC), System Integration Testing (SIT), and field testing by documenting findings, coordinating follow-ups, and tracking feedback.	

- Participated in sprint reviews, retrospectives, and project evaluation to support continuous improvement and project handover.
